Bug Metrics at the End of Each Iteration

Severity Value	Bug Description
Low Impact (1 point)	Typo error and basic user interface alignment issues. Not important.
High Impact (5 points)	Some non-critical functionalities are not working as expected. The project application still runs.
Critical Impact (10 points)	Entire system is down, critical functionalities are not working, system crashes. Team has to stop and fix bugs before continuing.

Total Points	Action to be Taken
Points <= 20	Proceed with planned schedule. Acceptable progress.
20 < Points <= 40	Slight delay in project progress. PM to review schedule and reallocate task if needed.
Points > 50	Critical delay in progress. Team meet up for discussion and review of project scope. Functionalities to be completed accordingly to the amount of time left.

Point Calculation
Total = 1 x num (Low) + 5 x num (High) + 10 x num (Critical)

Iteration No	Date Discovered	Application	Description of Bug	Points	Discovered by	Action Taken by Developers	Solved by	Solved Date
2	28-Sep-13	Mobile	Application crashes when selecting any dates on the Create Event UI Page	10	Hui Shia	Ensures that calendar library is loaded properly	Crys	28-Sep-13
2	30-Sep-13	Mobile	Application is unable to logout from Facebook	5	Hui Shia	Added Facebook logout function	Tommy	1-Oct-13
2	5-Oct-13	Mobile	Application is unable to display any facebook friends after facebook login	5	Hui Shia	Verify facebook login to ensure user is login properly	Tommy	5-Oct-13
2	5-Oct-13	Mobile	Application crashes when clicking on Select Friends Page as facebook friends are not loaded properly	10	Hui Shia	Validate and callback to facebook login to ensure that no null values is populated	Tommy	6-Oct-13
Total Points:				30	Slight delay in project progress. PM review schedule and reallocate Doodle Availability to the Iteration 3			
3	1-Nov-13	Mobile	After logging in via Facebook, applications directs to a blank page. System crashes soon after. When resuming the application, it goes directly to the blank page.	10	Hui Shia	Relocated main page to Cal.	Crys	1-Nov-13
3	1-Nov-13	Mobile	In the Create Event Page, when a date is selected, the display of date on the screen is different from the data selected. (Eg: Selected Date: 1 Nov 2013, Populated Date: 1/10/2013)	1	Hui Shia	Cannot replicate error	Crys	1-Nov-13
3	1-Nov-13	Mobile	When Chat Page is clicked, system crashes.	5	Hui Shia	Forgot to initiate MainDB - fixed	Crys	1-Nov-13
Total Points:				16	Proceed with planned schedule. Acceptable progress.			
4	2-Jan-14	Mobile	Facebook login relogins twice before entering of application	5	Tommy	Revalidate facebook login to prevent user from re-logging in	Tommy	2-Jan-14
4	2-Jan-14	Mobile	When selecting of multiple dates in Date Picker Page, application crashes	10	Hui Shia	Adjust logic in calendar library to allow user to load and select multiple dates quickly. App crashes as dates are selected occur too fast.	Crys	3-Jan-14
4	2-Jan-14	Mobile	Unable to tick user's doodle availability accurately, last row of the datesof availability cannot be ticked.	5	Hui Shia	Remove static bar on the last row (Not supposed to be there)	Hector	2-Jan-14
Total Points:				20	Proceed with planned schedule. Acceptable progress.			
5	16-Jan-14	Mobile	Clicking on exisiting chat or newly created chat to access the grp chat page, application crashes	10	Hui Shia	Outing list from server is not fixed, so it crashes. Debugged and Fixed.	Tommy	16-Jan-14
5	16-Jan-14	Mobile	Even when there's an existing chat in the chat main page, it prompts me to "create a new chat cause I don't have any"	1	Hui Shia	Modify Error such that it doesn't populate when there are existing chats	Tommy	16-Jan-14
5	16-Jan-14	Mobile	Chat History is not shown	5	Tommy	Configure Server-side to allow display of chat history	Hector	17-Jan-14
5	16-Jan-14	Mobile	No validation done: Start date/time should not be later than end date/time for Calendar function	5	Hui Shia	Error Proof Calendar Function	Crys	16-Jan-14
5	16-Jan-14	Mobile	Application crashes when no friends are being selected/no dates are being selected	10	Hui Shia	Validate and error proof selecting of facebook friends	Tommy	16-Jan-14
Total Points:				31	Slight delay in project progress. PM reviewed schedule and allocated more time for bug fixing in next iteration			
6	27-Jan-14	Mobile	Duplicated messages, happens on resume of app	5	Tommy	Stablize application to prevent duplicate messages	Tommy	28-Jan-14
6	27-Jan-14	Mobile	FB pic gets squashed to the side or even disappears when typing very long messages	1	Hui Shia	Allow stickyness of fb pic on individual/group chat page	Tommy	27-Jan-14
6	27-Jan-14	Mobile	When I click '+' from Group Chat Page to Create New Event Page, then I click 'Select Dates' and fill the necessary details and get directed back to the Create New Event Page, Users are duplicated.	5	Hui Shia	Create logic to prevent repopulation of users due to smart population	Hector	28-Jan-14
6	27-Jan-14	Mobile	When searching for friends in 'Select Friends' from Create New Event/ Group Chat, when I search for Hector, then I backspace, some of the friends are ticked as well. This in turn cause it to be unable to select more friends.	5	Hui Shia	Prevent replication of selected friends due to selecting of the same area of the page.	Tommy	28-Jan-14
6	27-Jan-14	Mobile	Make search for friends in both Chat and Create new event case insensitive	1	Tommy	Remove validation for exact letters	Tommy	27-Jan-14
Total Points:				17	Proceed with planned schedule. Acceptable progress.
