

# Supervisor Meeting #4

## MINUTES

FEBRUARY 12, 2015

SIS MR 4.1

<b>MEETING CALLED BY</b>	Nicholas Lee, Goh Jian Hao
<b>TYPE OF MEETING</b>	Supervisor
<b>NOTE TAKER</b>	Goh Jian Hao
<b>ATTENDEES</b>	Prof. Kam, Nicholas Lee, Goh Jian Hao

### Topics discussed

<b>DISCUSSION</b>	A need for a control for experiments (DT & Log regressions) and started to construct the DT using the entropy value to find out the variable that gives least uncertainty (when I is lesser)
<b>CONCLUSIONS</b>	Apprised of other ways to construct a DT and was advised that log regression may not be as accurate a predictor as a DT due to high number of variables

<b>SPECIAL NOTES</b>	Meeting ended in 45 minutes and supervisor and team are apprised of the above mentioned notes.
