

SUPERVISOR MEETING MINUTES #2

Date: 16 January 2015

Time: 3.30pm

Venue: SIS Prof Seema's Office

Attendees: Prof. Seema

Faris Jing-Yi

Apologies: Marcus

Agenda: 1. Update on meeting with SGH

2. Discuss on the analysis to be applied

3. Discuss on scope of project

4. Review on proposal

Note **Actor Due Date** Update on meeting with SGH Explained to Prof Seema on the 2 ideas that came up during the discussion with SGH. Agreed with the project of Predictive Analytics To get data/sample of data asap Type of analysis ΑII Week 3 Prof Seema suggested the use of Market-Basket Analysis in SAS Enterprise miner. **Market Basket analysis** a. Similar to the retail shopping, at a grocery store, we can analyse what are being bought together. Eg Diapers and beer. Therefore we can use the same concept for the co-existent of tests ordered in the ED. b. This analysis does not take sequence into consideration. c. If we need a sequence, there is an extension to it. It is called: sequence analysis. Would require extra element of time. Preparation Prepare data – check if there is any order. Which order come first? Use Sequential/association analysis for this. Will need extra element of timing/order/date etc. Read about market-basket analysis. **Project Scope:** 3

	2.	Put orders into groups. (eg blood test & ECG) Link those groups to patients. (eg. What type of tests a patient will be interested in based on demographics time etc)			
4	Project I	Proposal & Wiki	1.	Jinq-Yi	18/1/2015
	- 2. :	SGH PROJECT PROPOSAL DUE SUNDAY 18/1/2015 Include timeline of important milestones SMU PROJECT PROPOSAL & WIKI DUE FRIDAY 23/1/2015 Answer all the open questions. Eg what type of analysis are needed. Include timeline Propose approach and tool to karway ema is open for meeting at 3.30pm every Friday	2.	Team	19/1/2015

The meeting was adjourned at $4.00 \, \mathrm{pm}$. These minutes will be circulated and adopted if there are no amendments reported in the next three days.
