Meeting minutes

Attendees	Esther, Ziteng, Desmond
Date	2017/07/01
Location	SIS Level 4
Meeting Agenda	- Getting to know each other - Discussion on the rough timeline of the project - Start looking for possible sponsors of the project
Notes	- Start looking for sponsors from wiki page or other companies - SAS might be willing to provide us some POC project to work on but since it's just POC, it could be quite risky, and prof Kam he do not suggest us to do that cos that is not a real-world sponsor then - Prepare ourselves e.g. learn relevant coding languages
To-do	- Read ANLY482 wiki page, look for previous sponsors who already have some data to be analysed - Brainstorm possible new sponsors - Try approach our current internship company for any possible projects
