Agenda: 1. Show Prof Kam the data received from the sponsor.

S/N	Notes	Action by	Follow-up Action
1	Showed Prof Kam the data from company X, and explained what the data represented. Told Prof Kam that the group intends to use Qlik Sense, since the company is currently using it. Mentioned that the group will also try using Tableau and JMP Pro, since the company has given the group freedom to use the platform it deems best.	Yorisan and Cliff	To use Qlik Sense and Tableau to create dashboards.
2	Prof Kam comments that data is currently not in relational format, the format required to do analysis and visualisation.	Cliff and Amanda	Change data into relational format. Check with sponsor if the data can be retrieved from the company's internal server in relational format.
