Venue	SIS Meeting Room 4.6
Attendees	Tan Yong Jin, Wu Wei, Wang Miaoqiong Supervisor: Prof Meena
Agenda	Fortnightly Supervisor Meeting

S/N	Item Discussed	Remarks
1	Project Details	Progress update on the latest discussion during the last meeting with the Client. Expressed our problems regarding data size slowing down performance and the progress of the project.
2	Data	Suggested to load partial data to work on something, then advise them that the sheer amount of data makes it impossible to handle. At least show something then it is easier to convince them.
3	Analysis	Shared our plans to use Geospatial Analysis, Time Series Analysis and other various analysis to perform an initial analysis of the data.
