

Team Meeting #3

Drafted by: Ong Geok Ting (16/01/2018)
Edited and Vetted by: Tan Rui Feng (17/01/2018)

| <u>Date</u> | <u>Time</u> | <u>Venue</u> |
|-------------|-------------------|--------------|
| 16/01/2018 | 1500Hrs – 1600Hrs | SOL GSR 3-03 |

Participants: Liam Pang , Ong Geok Ting and Tan Rui Feng

Agenda:

1. Exploring options for our project

| Meeting Item 1: Exploring Options | | | | |
|--|--|--|-----------|------------|
| S/N | Issue | Action | By | Due |
| 1 | Pang begin the meeting with asking how we think our next steps of the project will be, other than the visualization our client has requested for, what can our team further value add on. | | | |
| 2 | Ong raised the issue of the data, she thinks that the data is too “cleaned”, she is concern about how much analysis we can obtain from the set of data. | Brainstorm more possible data we would obtain from REO | All | 17 Jan |
| 3 | Tan agrees to Ong as he also find the data are too aggregated and that analysis might not churn out meaningful results. He suggested that we collate a list of possible request for more in-depth data from REO. | Note down all the possible request for more data | Tan | 17 Jan |
| 4 | Pang acknowledge all the concerns raised and suggest the team to forward the concerns to Prof Kam during our next meeting. | Remember to consult Prof Kam during our next Supervisor meeting regarding the issues on our data | Pang | 16 Jan |
