ANALY482 MEETING MINUTES WITH SUPERVISOR

Date:	05 April 2017
Time:	14:30 – 15:00
Venue:	Meeting Rm 4-7 (School of Information Systems)
Attendees:	Prof Kam, Lu Ning, Song Rui
Absentees:	Dina
Agenda:	Updates about project progress

S/N	Things Discussed/Done	Remark

1.	Updates about project progress	Word cloud
		Show the results on the elementary word cloud analysis on text mined from the title of the journals and articles.
		• Include own stop word in our dictionary
		• Dig into term cloud to generate more meaningful findings
		• Find out more about tourism for SIS and SOA
		
		UCDA report
		Spend time to highlight the mist of big data:
		• on how the data itself is not readily available
		• how good the quality is?
		• data is available but not ready to use
		    "data rich information is very poor"
		    need to chop the data into parts for future use
		• Split into two parts to talk about in the report
		    o Data preparation
		    o Data visualisation
		• Complete the report as much as possible for prof to give a holistic review and suggestion
		
		Horizon graph:
		• How to feed the horizon graph into our paper to show case our result
		• Contrast with general line graph to present its usefulness
		• Explain how it is been built, and for the user how to read and understand the horizon chart part
		• Explain on the customization part and the visualization part

Item Due (Team)/Action(s)
Deadline: 07 April 2017 – Draft UCDA report 23:59 Tasks - To prepare the report (whole team) - To follow up with word cloud item, and explore further on with the term cloud approach (Dina) - To draft the outline of the report (Alex) - To follow up with the horizon graph item (Ray)
