

02_23 Sponsor Meeting

Date/Time 23 February 2018, 2:00PM – 3:00PM

Attendees Arushi, Tanushree, Shubhangi

Serial Number	Notes	Actors	Follow up Action
1	<ul style="list-style-type: none"> - Questions a. User Data Set <ul style="list-style-type: none"> - Does the column user_type imply something specific? - What does user_status (Active, Banned, Pending) mean? - Does the column First_Promo_used include additional seasonal promotions? - What does User_country mean? We have a very varied distribution, so we were guessing it may mean nationality (please find picture attached) ? b. Merchant Data Set <ul style="list-style-type: none"> - Similar to user_status, there is a restaurant_status (Active, Banned, Pending). What would this mean? - What does Total_Ratings mean? How are these ratings given? c. Reservation Data Set <ul style="list-style-type: none"> - For the booking_lat and booking_long, is this the location of the restaurant where the booking is made or the location from where the booking is made? And are the zeros in this column simply missing values? - Is the format of booking_time correct? It was in decimals 	All	Organise Data accordingly

	<p>initially and when we translated it to a time format, we get 12am for nearly all observations.</p> <ul style="list-style-type: none">- Thank you for your help in helping us understand this- just want to make sure we are interpreting the data correctly.
