	Note	Actor	Due Date
1	Updated prof regarding the three directions that we are going into: <ul style="list-style-type: none"> <li>- 1. LOS against test results – if test is clear how it affect LOS?</li> <li>- 2. Combination of test might also give us a difference in LOS.</li> <li>- 3. Relationship of reentrant and LOS</li> </ul> Our feedback was generally okay. Prof suggested the following to be prepared for our mid-terms: <ol style="list-style-type: none"> <li>1. Clear documentation on the process of how we come to where we are today.</li> <li>2. Using random foresting for clustering is most suitable in our case of analysis</li> </ol>	ALL
