Agenda:

1. Update and finalise on Interim presentation concepts
2. Consolidate ideas and suggestions given by Prof Kam

S/N	Notes/Task	Assigned To	Follow-up Action
1.	We finalized our approach with Prof Kam with regards to interim. We will proceed with identify the top 3 locations among the three categories that have most number of records. Namely, HDB, PARKS & RESERVOIRS, MRT STATIONS and LANDED.	All	Nil
2.	For LANDED, besides analysing the top clusters based on the LATLONG and identical road names, Prof Kam advised us to include more records based the road networks. (Discussion is KIV, to be continued after Interim presentation)	All	Nil
3.	For time intervals, currently we are identifying the hotspots with shortest time intervals, hence suggesting closest reporting time among each location. Currently, we are identifying the time intervals in terms of days. Prof advised us to identify the time intervals in terms of time (hours and minutes).	All	All
