Supervisor Meeting Minutes #5

Date/Time	**04th Apr 2018, 4.30pm to 5.30pm**
Venue	School of Information Systems Meeting Room 4.6
Attendees	Meenakshi Gopalakrishnan, Mohamed Lukman
Agenda	1. To discuss theoretical issue with chi-squared test 2. To go through final practice research paper draft

Sl. No.	Notes/Task	Actor	Follow-up Action
1.	During this meeting, we brought up an issue that was found while doing the literature review for our chi-squared tests. This was to do with the appropriateness of a chi-squared test on paired data (as opposed to tests like McNemar's and Wilcoxon Signed Ranks). Our supervisor explained the debated issues with us that helped us understand the justification for the chi-squared tests.	Mohamed	Find more research about this to justify our choice of statistical test in the research paper.
2.	We had a cursory discussion on the research paper draft.	Mohamed	The draft had been uploaded and we will work on it when we obtain detailed comments from our supervisor.
