# PATRON PROFILING

# RFM WORKFLOW

# PATRON PROFILES

Cluster 1: 166,768 patrons

- Active, Frequent, Low Volume
- High R, High F, Low M

Cluster 2: 117,572 patrons

- Inactive, Non-Frequent, High Volume
- Low R, Low F, High M

Cluster 3: 179,666 patrons

- Active, Non-Frequent, High Volume
- High R, Low F, High M

Cluster 4: 117,799 patrons

- Inactive, Non-Frequent, Low Volume
- Low R, Low F, Low M

Cluster 5: 178,875 patrons

- Active, Frequent, High Volume
- High R, High F, High M

Cluster 6: 134,859 patrons

- Active, Non-Frequent, Low Volume
- High R, Low F, Low M

# PATRON PROFILES

## Active

- Clusters 1, 3, 5 & 6

## High Frequency

- Clusters 1 & 5

## High Volume

- Clusters 2, 3 & 5

## Inactive

- Clusters 2 & 4

## Low Frequency

- Clusters 2, 3, 4 & 6

## Low Volume

- Clusters 1, 4 & 6

# CHECKING OF ASSUMPTIONS

- Definition of 1 transaction
  - All records in the TXN\_FY13 and TXN\_FY14 csv files with the same:
    - Txn Date
    - Patron UID
    - Branch Code
- There is a maximum of 32 books in 1 transaction
- Patron location is set as the centroid of the subzone the patron is in

# ANOMALY 1

*Locale Planning ADZID* contains "Bad Value" and "Missing Value"

- Patron Dataset

2013 *Locale Planning ADZID* Column (2,355,651)

- Count of Missing Value (23,822)
- Count of Bad Value (35,866)
- Count Missing & Bad Value (59,688)
- % Missing & Bad Value (2.534%)

2014 *Locale Planning ADZID* Column (2,462,270)

- Count of Missing Value (33,808)
- Count of Bad Value (37,010)
- Count Missing & Bad Value (70,818)
- % Missing & Bad Value (2.876%)

| Patron Gender | Patron Activ... | Locale Planning ADZID |
|---------------|-----------------|-----------------------|
| Female        | 0               | Bad Value             |
| Female        | 1               | Bad Value             |
| Female        | 1               | Bad Value             |
| Female        | 1               | Bad Value             |
| Female        | 0               | Bad Value             |
| Male          | 0               | Bad Value             |

# ANOMALY 2

*Patron UID contains "0"*

- Transaction Dataset

TXN\_FY13

- 19,828 records have attribute *Patron UID = "0"*

TXN\_FY14

- 641 records have attribute *Patron UID = "0"*

|   | Txn Date Time       | Branch Code | Circulation Type Code | Item Barcode | Patron Borrower Category Code | Patron UID |

# ANOMALY 4

Records have *Avg. No. of Books Borrowed Per Transaction* > 32

- Transaction Dataset

TXN\_FY13

- 893 patrons with *Avg. No. of Books Borrowed* > 32

TXN\_FY14

- 779 patrons with *Avg. No. of Books Borrowed* > 32

|   | Patron UID | Patron Borrower Category Code | Locale Planning ADZID | Total No. of TXN (F) | Total No. of Books Borrowed | Avg No. of Books ... |
|---|------------|-------------------------------|-----------------------|----------------------|-----------------------------|----------------------|
| 1 | 1311394    | DEAR                          | TMSZ04084             | 1                    | 7998                        | 7998                 |
| 2 | 1322024    | DEAR                          | TMSZ04084             | 1                    | 6000                        | 6000                 |
| 3 | 1456682    | DEAR                          | TMSZ02305             | 1                    | 4000                        | 4000                 |

# ANOMALY 4

Records have *Avg. No. of Books Borrowed Per Transaction* > 32

- From the records with *Avg. No. of Books Borrowed* > 32, most of the records have attribute *Patron Borrower Category Code* = "DEAR"
- 775 patrons with attribute *Patron Borrower Category Code* = "DEAR" (2013)
- 705 patrons with attribute *Patron Borrower Category Code* = "DEAR" (2014)
- The records have unrealistic values in attribute *Patron Birthyear* i.e. "1900", "2015", "2016" etc.
- The records have value "Others" as *Patron Citizenship*, *Patron Race*, *Patron Gender*

|  | Patron UID | Patron Borrower Category Code | Locale Planning ADZID | Total No. of TXN (F) | Total No. of Books Borrowed | Avg No. of Books ... |

# SUMMARY OF ANOMALIES

- Patron Dataset
  - Under column heading *Locale Planning ADZID*, records have values set to "*Bad Value*" and "*Missing Value*"
- Transaction Dataset
  - Under column heading *Patron UID*, records have values set to "0"
  - Under column heading *Branch Code*, records have values set to "*Bad Value*" and "*Missing Value*"
  - When aggregating transaction records, some records have Avg. No. of Books Borrowed Per Transaction exceeding 32
  - Presence of *Branch Codes* that are not listed in the Collection Dataset
