| No. | Discussion Item |
|-----|--|
| 1. | Usability Testing Feedback and Implementation <ul style="list-style-type: none">• All problems that were reflected to the reviewers and Prof. Ben Gan will be worked on and changes to those UI related problems will be rectified• Consistency should be maintained for intelligent searches – all view pages will have searches• Transaction tracker will have search by date only |
| 2. | Continuation of R <ul style="list-style-type: none">• R can be installed on the server and deployed – However, the question is whether it will truly bring value to the client• No way to validate the models – Which model is the “true” or “most appropriate model”?• A dashboard analysis using ‘D3’ might be able to bring more value to the client as it is easier to comprehend<ul style="list-style-type: none">○ Monthly transactions○ Monthly transaction value○ Stocks, Current Holdings, or Stock Transactions○ Performance report of salespersons - Who created the most sales? |
| 3. | Work delegation <ul style="list-style-type: none">• Gabriel and Sundaram will be working on pagination for view pages and intelligent search by date for transaction tracker• Bryan will working on experimenting with ‘D’ |
