

Supervisor Meeting 6

Date: 14 October 2015
Time: 7pm
Venue: SIS Level 5

Attendees: Sanjay Nelagadde
Ng Kiat Keng
Foo Yee Cheng
Lim Ting Zhi
Chris Boesch (Supervisor)

Agenda:

1. Update supervisor on our current progress
2. Demo our app to supervisor
3. Discuss with supervisor about midterms feedback
4. Gather feedback from supervisor.

Details:

1. Discussed with supervisor what did we learn from midterms and what have we done due to midterms feedback:
 - a. Re-schedule our iteration to focus on optimization
 - b. Optimize our newsfeed to make it load faster
 - c. Continue to refine our search function
2. Supervisor was concerned that we are going to build the same app regardless of user testing. Hence we explained to supervisor what did we change based on user testing feedback; we changed not just the UI but also the scope (sliding tab) based on User Testing.
3. Supervisor suggests that in order to distract users when the newsfeed is loading, we can show nail polish related news while the app is loading.
4. Supervisor was concerned that users may not care about the app. However the team is constantly trying to make the app appealing.

Agenda for next meeting:

1. Show progress on newsfeed loading to supervisor.
2. Continue midterms feedback

The meeting was adjourned at 7.20pm. These minutes will be circulated and adopted if there are no amendments reported in the next three days.
