UAT Feedback and Discussion

-   Need lead integrator role.

-   Midterm presentation – Siddhant sending the email

-   Local server, still need time to go through the process from BP side

-   Feedback from Peter – integration need more effort.

-   Test script is confusing. Instructions not clear. Better have testing facilitator in future.

-   Suggestion: scenario, action, results should be clear.

-   Email repository of our github to Peter.
