PROGRAMMING COURSES

Would you like SingPath to be part of your programming module?

PROGRAMMING COURSES

How would you like SingPath to be part of your programming module

LANDING PAGE (A|B TEST)

This screenshot shows the SingPath landing page (Version A). The header includes the SingPath logo and navigation links: Practice, Quests, Mastery, Purpose, Feedback, More, and Profile. The main content area features a large image of a tablet displaying the SingPath interface. To the right of the image, the text reads: "SingPath Fun with software languages!". Below this, a paragraph states: "SingPath provides a platform to those that want to test their programming skills in a competitive and fun environment. Specialize in one language or show your flexibility and skill by coding in multiple languages." Two buttons are present: "Ready to Practice" and "Gotta try a Quest!". At the bottom, there is a section titled "Master These languages Now!" with logos for Java, python, JS, and a red logo.

This screenshot shows the SingPath landing page (Version B). The header is identical to Version A. The main content area features a smaller image of the SingPath interface. To the right, the text reads: "What is SingPath?". Below this, a paragraph states: "SingPath is the most FUN way to practice software languages! SingPath provides a platform to those that want to test their programming skills in a competitive and fun environment. There is a range of programming languages that you can test your skills with including Python, JavaScript, Ruby, Objective C and Java with many other languages to come. Specialize in one language or show your flexibility and skill by coding in multiple languages. What are you waiting for? Sign in today and follow your chosen path!". Two buttons are present: "Gotta try a Quest!" and "Ready to Practice". Below the buttons, there are three testimonials from users: Danny Whittaker, Arathi, and Haja Hameed, each with their name and a short paragraph about their experience with SingPath.

SUGGESTIONS

| Suggestions | Solutions |
|----------------------------------|---|
| Full Screen mode | Not what the client had in mind |
| Options hidden in nav-bar | Design by client |
| Drop hints | No hints for Tournaments |
| Skip question option | Added for other features, not allowed to skip questions in Tournaments |
| Loading site indicator | Added loading text while loading which disappears when content is loaded |
