

Iteration 13 - Preparation for Poster Submission, Things to Do <Calendar> Tie Up

Date: 26 Jan

Time: 1045 to 1130am

Venue: Proj Ben Gan's office

Attendees: Brindha, Gui Shi, Hakam, Hye Ri, Min Xuan and Shi Kai

Absentees: -

Internal meeting agenda:

To be discussed / brought up	Remarks / Comments
Quick demo of updates in Marry.SG	
Feedback on getting wedding fairs and vendors	
Outline of Final Presentation	

Discussed during meeting:

Demonstration

- Need a better name for the introduction (Introduction 1, Introduction 2, ... during the tutorial)
- Demo-ed: Pulling out of tutorial button
- Demo-ed: Name and date automatically updated on text editor and countdown once profile has been updated
- Demo-ed: RSVP canvas date is also automatically updated
- Tagboard page will only appear when user indicates the hashtag in Profile card
- UI changes: Larger edit space for Rich Text card, Double scrolling issue will be solved by creating a button control

Sponsorship/Wedding fair

- Marreo going down for a wedding fair in Marina Square
 - Aim for those who come out from the fair
- Aim for other events other than Wedding fairs
 - e.g. ROM, Wedding forums, Google Adword

Outline for Final Presentation

- Include Market Research slide (this is our strength)
- Move Architecture diagram up, describe what Graph Paper does and Marry.SG does
- Our weakness is technical part, need to specify what we have done separately from Graph Paper's work

- Value Add: Demo that we do write codes and ensure that the code shows the complexity
- What does Graph Paper do on top of Meteor
- Technical Complexities: Learning Curve of Meteor, Integrating of codes together (using Meteor) - Creation of Card & Integration of cards (Project)
- User testing: different racial demographics
- Do not explain so much in detail regarding our project delays
- Strength: Aesthetic, how we address actual wedding planning couples, vendors, promotions (sponsorships). Make these more explicit: that we did photo shoot, how much time we spent, list wedding fairs that we went down, user testing with users who are really planning

Action Items:

#	Task	Assigned	Due date
1	Come up with draft slides for next Supervisor Meeting		8 April
2	Do Architecture Diagram	Hakam	8 April
3	Attend Wedding fair	Everyone	8 April
