Mok Hao Ze Benjamin	Present	-
T S Kautham	Present	-

#### 3. Pre-work/Preparation (Documents/Handout to bring, reading materials, etc)

Description	Prepared By:
-	-

#### 4. Agenda and Notes, Decision, Issues

Topic	Owner
<b>Video Filming</b> <ul style="list-style-type: none"><li>- <b>Actor:</b> Liting &amp; Kautham</li><li>- <b>Cameraman:</b> Theva</li><li>- <b>Video Editor:</b> Raghav</li><li>- <b>Storyline:</b> Liting (Year2) asked Kautham (Year3) for advice on how she should get around doing it cause she would like to secure an internship (A Technology Role) in a banking industry.<ul style="list-style-type: none"><li>o And then, show the screen recording how Liting uses the app.</li><li>o At the end of the video, Liting will thanks Kautham for introducing tBank to him.</li></ul></li></ul>	Liting + Theva
<b>Weekly Update</b> <ul style="list-style-type: none"><li>- All Functions (except for account statement and Customer Preference) is completed.</li><li>- Video editing is in progress.</li><li>- Transaction History is still not working properly.</li></ul>	Liting

<ul style="list-style-type: none"> <li>- Line chart is newly supported by getMonthlyBalanceTrend API <ul style="list-style-type: none"> <li>o Pass in the accountID and the numMonths.</li> <li>o If numMonths is 6, for example, then the API returns the CurrentMonth balance plus the 5 previous months balance.</li> <li>o In the Year_Month return value, just use the year and the month segments when plotting the chart. Ignore the day segment.</li> <li>o If there are any months with no transactions, then the API automatically fills in the next adjacent months balance.</li> <li>o If the account is newer than 6 months, then the API will fill in a value of 0.00 for any months older than the account creation date.</li> <li>o This should simplify the front end code, and make it quicker to load.</li> </ul> </li> <li>- Rachel will be working on Customer Preferences Module requires the update of phone numbers and contact details after all the bugs are cleared.</li> <li>- Direct to Login upon refresh is merged into the main branch and it is working well.</li> <li>- Minor UI Bugs will need to be fixed before the next Lab session.</li> <li>- Need to prepare for next (Final) UT8</li> </ul>
