CONTENT FLOW

1. Our Progress
2. Demonstration
3. Road to Acceptance
4. General Questions

GOALS / RECAP

Create an IS480 Management System that is:

- User Friendly.
- Able to be implement the basic functions of the IS480 management system.
- Deployed before acceptance.

1.

OUR PROGRESS

Where we **WERE**.

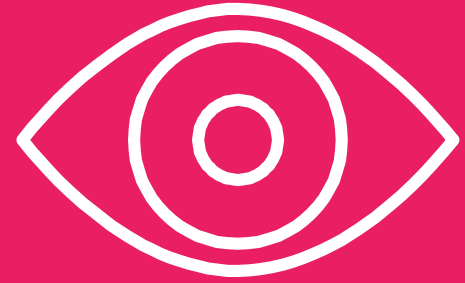

- No SSO Server
- Had not complete student module
- Had not complete team module
- Did not integrate project module
- Little web development.
- No Coordinator functions implemented

What we **DONE.**

- Basic Functions (Student, Project, Team module) has been up, but not fully complete (80%)
- Web Design is in progress, but not fully done. (left team module)
- Some Coordinator Function has been done. (Term, Export, Accept Project Proposal Module)
- One member has left ByteMe

2.

Demostration

Process Flow of Guests

Login SSO Student

Student Module (Team, Student, Project Module)

Other functions (review proposal, audit trail, etc.)

Export Student-team module

Term Module

Login SSO Admin

3.

Road to Acceptance

Road to **Acceptance**

Week -2 (1st August - 7th August)

- User Testing (4/8 & 5/8 & 6/8)
- Huge Bug Fixes
- UI/UX and Front End Development

Week -1 (8th August - 14th August)

- User Testing Comments & Fixes
- Preparation for Acceptance (presentation slides, wiki, documents)
- Miscellaneous Functions (coordinator project, self-propose project)

4.

General Questions

General Questions

- Do you want to be part of user testing (thurs/fri)?
- General Comments on the current application? (Functions/User Interface, etc.)
- Do we need to do anything else for acceptance?
- How are the other groups doing?
- Other important functions required
