

## Team One Piece

Date : 10/08/2014  
Location : Skype Session  
Subject : Meeting  
Attendee : Aniket, Ila, Mi Mi, CG, Siddhant, Phyu Phyu  
Absentee : None

## Agenda

- **Phyu** - Discuss about the acceptance presentation component and market comparison.  
Text editor tool
  - a) Impressionist
  - b) Struct  
Product comparison
  - a) Moodle
  - b) Prezi  
Drawing diagram website - creatly
- Discuss about Bug Metric. Using google docs is not a good idea. So, final decision is to commit to the Git.

### Development

- **Ila's part**
  - Tried to read directly from the database. Encode into url/uri. Populate the number of slides.
  - Current status is blob object is coming until JavaScript
  - Create, edit and delete module will be get it done by today's evening. (primary - basic)
  - Audio and Video may be included in the slide show as well. (by tomorrow)
- **MiMi's part**
  - Create quiz is working well on the Chrome. Not on IE.
  - Aniket and MiMi discussed on IE issue.
- **CG's part**
  - Able to populate the data from database. Edit quiz still has bug.
  - Issue CG is having is that
    - 1) Data is not able pass from the JS file to servlet.
    - 2) Not able to save data to the database.
  - Backend code delete quiz is done, but haven't integrated yet.
  - CG will commit to Git for delete and Ila will combine to the homepage

- **Siddhant's part**
  - Risks (Need to verify by PM (Phyu))
  - Team OnePiece (Replace the image) (Second priority) (Need to verify by PM (Phyu) Let Siddhant know about choice)
  - Tools (Request Ila for review)
- Will focus only on functionality not on IE issues until the acceptance. (a bit risky)
- **Aniket & Siddhant** will test the integration on Monday and logged into bug metrics. Get back to us by 1130PM.

### Peer Internal Review Documentation

- Aniket
 

Ila's opinion : In general, very good. Hibernate learning curve contribution is really helpful for our team.

CG's opinion: Aniket's contribution is helpful. (Same as Ila)

Siddhant's opinion: Same as Ila

Phyu's opinion: Aniket is too good to others but he doesn't need to and should try to get to the point.

MiMi's opinion: Helpful, kind and patient.
- Chenguang
 

Aniket's opinion: Pair program with him is good and always learn something from him. Different from SE experience.

Phyu's opinion: He is committed to what he is assigned which is very good. But, need to communicate with PM more.

Ila's opinion: Your contribution is good. You need to be more vocal.

Siddhant's opinion: Has no idea, but guess that his work done is great.

MiMi's opinion: Communication problem. Speak slower and clearly.
- Ila
 

Aniket's opinion: Most experience person in technical issues. Contribution is nice

Siddhant's opinion: Technical knowledge is great. Value added person.

MiMi's opinion: Learnt a lot from her. Value added suggestions.

CG's opinion: Most experienced.

Phyu's opinion: There is a gap between Ila and the rest of the members. Ila is a good personal to work with.
- MiMi
 

Ila's opinion: Backend and frontend integration and all rounded. Good resource on the team. Her codes are easy to understand and neat coding skill.

Aniket's opinion: Have a lot of exposure on many things.

Phyu's opinion: She has no exposure but she really puts effort to finish what she is being assigned to.

Siddhant's opinion: Great personality. It's easy to connect with her. Patient and understanding.

CG's opinion: Very patient. Feel more comfortable to ask question to MiMi.

- Phyu Phyu

Ila's opinion: Good to be the PM. She always makes sure to know each member's issue. Very documentation is meticulous and detailed. Shouldn't care about diplomatic and can be more open and transparent.

Mi Mi's opinion: She drives the whole team well. She worries, see the overall and drive the whole team.

Siddhant's opinion: Great PM. He doesn't feel comfortable of being chased. Don't tell him the same thing twice and thrice. Don't panic because of work. If you are panic, it makes Siddhant panic.

CG's opinion: Good communicator.

Aniket's opinion: Negotiation with supervisor is good. Dealing with internal and external stakeholder is good.

- Siddhant

Ila's opinion: He can do more than his current contribution (Example, coding) He also should contribute in terms of technical contribution. Team needs 5<sup>th</sup> coder. Two members

Aniket's opinion: After acceptance, team will need him to do coding.

Phyu's opinion: Need to have more commitment and serious about fyp.

MiMi's opinion: Fun to work with you. He is a skillful person for both technical and soft skill.

CG's opinion: Put effort in your coding skill.
