### AGENDA

- One more meeting before mid-term
- Take quiz module changes is approved
- The requirement that client requested are approved
- The checkpoint demo is approved
- The super admin module is approved
  
- Should include in the expected time and expected slides show trainer module first, it is more interesting
- Its ok to postpone the smu students user test
- Attend strong teams' mid term (430 to 600 Tuesday 7 Oct)
  
- For mid-term:
  - 1. Make sure main functions to work
  - 2. Expected questions: What are you going to do after mid-term? Need to address the specific thing we need to do, (like we will do this this function and this this module)
  - 3. How long is the system demo? Explain core concepts first and then demo is a bit confusing May be we should do the system demo first Upload our presentation and show?
