

## About 3DSocializer

3D Socializer is a fully customized social media dashboard on simplified 3D model of SMU categorizing tweets based on location and trending topics.

### Main Features

1. **3D model of SMU:** reflects the friendliness of the application by showing tweets on the 3D model.
2. **Trend page:** displays the popular topic around SMU.
3. **Lost and Found Page:** discovers lost and found items on our application.

### Benefits

- SMU Students and Faculty Members**
- Discuss and contribute to the trends and topics around SMU.
  - Observe the culture and interaction of current students .
  - Visualize tweets from simplified 3D model and experience interactions with the model.
