

Date:	26th March 2014
Time:	1:45 PM – 3:00 PM
Venue:	SIS Level 5
Attendees:	<p>Team:</p> <ul style="list-style-type: none"> • Shanaaz • Yusof • Wah Chun • Fariq • Glen • Eng Sen • (Client: Chris Boesch)
	<p>Agenda:</p> <ul style="list-style-type: none"> • RP requirements <p>RP Requirements:</p> <ul style="list-style-type: none"> • Integrate RP students and directors accounts to be integrated to SingPath • Tournaments for each class (50 classes) and for 15 weeks (15 rounds) • Reporting tool • Not what was promised to them the last time round <ul style="list-style-type: none"> ○ Misalignment in expectations ○ Only will use SingPath if all these requirements are up by 25th April <ul style="list-style-type: none"> ▪ They want to test by 1st week of April <p>Others:</p> <ul style="list-style-type: none"> • The directors for first meeting and second meeting was different • Kok Chian was not present in 25th March meeting <ul style="list-style-type: none"> ○ Frankie, Desmond, Lynette present in the meeting <p>Action:</p> <ul style="list-style-type: none"> • What did we commit to doing or what did we walk away from <ul style="list-style-type: none"> ○ Send them the format of CSV for RP accounts and creation of tournaments <ul style="list-style-type: none"> ▪ Prof Chris will set up backend process for the CSV files and setup ○ Will get back to them by this week after we discussed with Prof Chris

Prof Chris comments:

- If they do not want to use SingPath then it is fine
 - Do not want anything that is RP specific
 - Want it to be available to use by all Poly
- Not making a one off instance for questions
 - Will not have RP proprietary questions
 - Have to do public SingPath questions
- Say no to allowing them to sign in using RP accounts
 - RP might be less inclined to use SingPath if unable to log in using RP account
- Multiple people **sharing tournaments and copying tournaments/rounds**
 - **Tournament collaborators** (directors)
 - Will be set up by Prof Chris
 - Share and copy rounds with collaborators
 - Difficult on UI side to copy round from current round when creating new tournament
 - Check if user is director or collaborator of tournament
 - View, edit and start tournament
 - Pre-assign students to each tournaments and groups based on CSV format
 - Minimize students' chances to play punk
 - We may report to RP if students from other class join another tournament not belonging to their class
 - Maybe not allowed to leave group once round started
- Have to finalize a proposal and lock the scope

Confirmed scope:

- **Our side**
 - CSV format
 - Tournament details
 - Round details
 - List of problem in each round
 - 1 director for each tournament
 - 4 Collaborators for each tournament
- **Prof Chris side**
 - Tournament Collaborators
 - API to check if current user ID is in tournament collaborator ID
