Team One Piece Agenda

Date   :   02/08/2014

Location   :   Skype session

Subject   :   Reflection after first user testing and project progress

Attendee   :   All

Absentee   :   -

*Member's schedule on Tuesday

- Aniket 12-3pm class
- Siddhant 12-3pm class
- Chenguang No class
- Mimi No class
- Ila 12-3pm class
- Phyu 7-10 class

*Selected members for virtual environment account with BP

1) Test every functionality – Siddhant
2) Integrate and test everything is find in their platform – Chenguang

*Need to create bug and schedule metrics (PM)

*Ila will finish internship 14 August. Members who are still interning (MiMi, Ila and Phyu)

*Discussion about content modification feature

- Cannot modify what already existing. We can only add new slides and item. (Text Editor Slide)
- + X Factor – to make it to the open source. MIT license, GNU open source. (Sidhhant can research) – Existing only 2 editors, this can be third one.)
- "Impressionisit" editor on the basic and improve more functionality – contributing to the community. (May need to **discuss with BP** – Just editor)

*Other facts

- Need to inform Morrison about acceptance requirement and functionality.
- Inform supervisor about BP coming down to acceptance.
- Acceptance demo – used acceptance presentation slides to demo. And also created Text editor.
- Create as applet if there is javascript is having problem for different users issues. May need to **(inform with BP – Peter Morrison)**
- Functionality Documentation – UI, Backend, Hibernate, Impress.Js (**Siddhant – by friday**)
- CG will talk to Mimi about quiz UI today
- Aniket will solve together about database issue today.

- Content Module – Ila (Populating the editor the uploaded slides) (create/edit)
- Wiki – content (X factor)

*In coming meeting, team will have internal peer review activity
