

Meeting No. 10

Date: 16 July 2014 (Wednesday)
Time: 8:00PM – 10:30PM
Venue: SOB GSR 3-22

Members

In Attendance: Brindha Menon
Chua Min Xuan, Max
Hakam
Khiew Shi Kai
Seol Hye Ri
Tan Gui Shi
Max Xu Meng Xiang (Sponsor)

Absent with Apologies: NIL

Minutes Recorded By: Brindha Menon

Agenda

Task	Remarks
1. Discuss functions to have	

Discussed

1. Focus of Wedding Planning feature:
Modularity -> Functions can work as standalones
However, our app should use them together to plan for a wedding
2. Functions
 - 1) Recommendations incorporating all sorts of things, food, hotels, etc. (e.g. Hungrygowhere plus Groupon plus Agoda)
 - 2) Food app should be added to help users find places (key feature: Navigation)
 - 3) Itinerary (cover 4Ws(Who, What, When, Where) and 1 H) may summarize entire itinerary
 - 4) Default Template as guidance
 - 5) Journey and Pictures (Journey under Pictures)
 - 6) Guest List Manager
 - 7) Date Recommendation – good to have

- 8) Shortlist on Recommendations – either users input items under shortlist or shortlist from Recommendations
3. Comments from Max(Sponsor):
 - 1) Calendar might be too complicated (Calendar should be linked with itinerary item)
 - 2) Add timeline so that full calendar will not be needed
 - 3) Itinerary: Core function, Calendar: Secondary
 - 4) Let To-do list be a standalone and it may be linked with calendar
 - 5) “Recommendations” is a big component. Might not be manageable
 - 6) Bare minimum = core functions + what makes our app special
 - 7) Do “Contacts” first, then “Shortlist”, then “Recommendations”
 - 8) Good to do coding using Mac. “Source control”. Using different machines, there may be conflict issues, and it may corrupt the program on different machines.
4. Proposal
Proposed solution: Write it in the form of requirements.

No	Task	Assigned	Due Date
1	Read on Material Design	Gui Shi	31-July-2014
2	Proposal Background and Justification	Hye Ri	31-July-2014
3	Objectives, Proposed Solution, Benefits	Brindha	31-July-2014
