

## Client Meeting 23 April 2013

### Agenda:

1. Update client about our project progress and our challenges of developing iOS development

### Clients' Input:

- He brought Myat Min iOS director
- We showed them our progress and our completed functions
- They were happy and gave us inputs about the iOS CCA, facility booking, and wayfinder
- He asked us to send him the slides and asked to include our project business logic assumptions and reflections
