Good afternoon everyone,

Thank you for joining the UAT session on 08 Nov. Attached is the meeting minutes for the UAT.

Firstly, in 08 Nov's meeting, 2 Change Requests are raised:

1. Separate the **Support** tab in navigation bar into 2 separate tabs named **Settings** and **Contact Us**
2. When user changes password, a pop up modal with success message should appear, and redirect the user back to login page (for Security Issues)

We will be accepting CR 1 - separation of tabs in navigation bar.

For CR2, we will include a redirection link that will automatically logout the user and redirect the user to login page immediately after changing password. Do not that no model will pop up before redirecting the user to the login page.

Secondly, please be reminded to fill up the sponsor evaluation (attached in this email), and send it to my supervisor via email, **before 22 Nov**: paulgriffin@smu.edu.sg

Thank you!

Best Regards,
Belynda
